

We would like to thank each of you for your continued support and cooperation with the changes we have implemented in our facility due to the Coronavirus outbreak, specifically with restricted visitation. Our nursing and support staff are working hard everyday to keep residents and staff healthy and safe. As of today, March 17, 2020, we do not have any resident or employee who has contracted the COVID virus and everyone is being closely monitored each shift.

We have received several requests to drop off clothing, personal items and food to specific residents. *After careful consideration, we have decided that the safest route would be to restrict all outside food, clothing, and personal items.* If you feel that your loved one is in need of specific items, please call the facility and ask to speak with the Director of Nursing or the Administrator.

Families who wish to FaceTime with their loved one may contact Melanie, the Activities Director, at 559-321-0883 Ext 5133 to schedule a time for your personal call. We are making every effort to ensure residents are able to communicate with their family and friends.
